Select one video clip from your phone

1 minute video tweet

Take your desire video and sound, while cutting check the sound carefully

Use the bars to select your desire area

Cut using the scissor
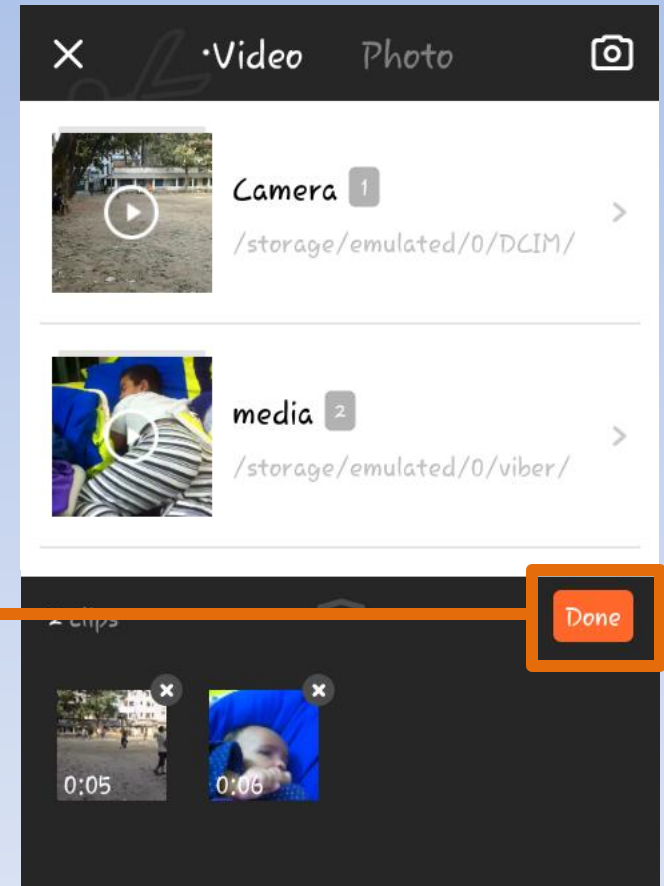

Finished with this clip? Add all cuttings

1 minute video tweet

**Now add more cuttings
by selecting your file and using trim
from different video clips**

When you are done cutting

Lets merge all the cuttings

By clicking on DONE

Clip edit   **Text**   FX   Sticker   Multi

Wow!

All selected cuttings are merged in one video.

Lets add   title
   give credits
                 write some info like date, place
                 finish with thanks or The End ☺

Use text under the edit button

**What ever you made he will like
the fact that we can video tweet an event**

1 minute video tweet

Was this effective?

Let's check the expected out comes

- Trimming video to delete unwanted moments from a large clip;
- Merge several video clips into one;
- Include a title and text into your video;
- Add/remove sounds/music
- Add transitions between cuttings
- Make a 1 minute video highlight
- tweet from your smart phone
